Restwel Mattress

Silk floss is the product of the Kapok tree.

It is the finest mattress filling known to science. Being a vegetable product, it is free from all animal matter—which often breeds germs.

Silk floss is a solid fibre—not hollow like most fillings. Silk floss is water proof—and as light as the finest down.

A Restwel Mattress

only weighs 30 lbs.

The makers of Restwel Mattresses have their own plants on the island of Java—there the silk floss is gathered, sorted and shipped to America. Then it undergoes a wonderful patented process of sterilization before it is used in the scientifically constructed Restwel Mattress.

We sell RESTWEL MATTRESSES—first, because they are absolutely guaranteed; and, secondly, because they give the best satisfaction of any mattress we know of.

While with all these virtues, THEY COST NO MORE than the UNSATISFACTORY mattress—whose filling is of uncertain origin.

A Few Facts to Consider

What Will Your New Suit or Coat Look Like After You've Worn It Awhile?

Two Suits may look very much alike when new, but it is the honest workmanship, the stitching and tailoring that cannot be seen, that gives permanence and durability not only to the garment itself, but to the graceful lines that you admire so much when you first put on your new Suit.

The several lines that we carry are famous for their perfection of style, for the beauty of fabrics used, but especially for the superb tailoring which gives them their perfect lines and unequalled air of refinement which you see in garments.

And all of this good character and good looks stays with the Suit, to return with all its original beauty every time the garment is pressed.

Dr. T. D. Bancroft gave his lecture on the assassination of Abraham Lincoln in the Hedding church last evening, and it was much enjoyed, word pictures of the scenes which he actually saw in Ford's theatre the night that John Wilkes Booth committed his act, being powerfully drawn. Dr. Bancroft himself has had a life of more than usual interest and he held the close attention of his audience throughout the lecture.

A letter received Sept. 14 by Joseph D. Ossola from his nephew, John Bernasconi, relates many stirring tales concerning the European war. Mr. Bernasconi is a young man of 22, and started his career as a customs officer in 1912. He is stationed in the province of Sondrio, on the border of Switzerland. He states that at the outbreak of the war many of the Italian people who had been in Germany and Austria as well as in the allied countries, were driven from those countries to their former homes in Italy without being allowed to take their household goods and secure their wages. Many were compelled to make their way home in large wagons, while others were compelled to walk a large part of the way. These people were so poor that the government was forced to care for them. He further states that Europe is in a state of poverty such as has never before been witnessed.
